

EMBASSY OF THE REPUBLIC OF KENYA WASHINGTON, D.C.

---

KEW/ADM/1/39A

To: The Kenyan Diaspora

From: Kiambu County

**REF: DATABASE FOR KENYAN DIASPORA FROM KIAMBU COUNTY**

This is to inform that the Ministry is in receipt of a request from the Food and Agricultural Organization (FAO) for information of Kenyan Diaspora originating from Kiambu County.

The request for the Diaspora information is as a result of a partnership between FAO and Kiambu County Government in implementing a project dubbed '*Reducing the adverse drivers of migration through local value chain development*'. The aim of the project is to address the root cause of rural out-migration by creating additional and improved employment and entrepreneurship opportunities in agri-business.

Successful implementation of the project requires the input of Diaspora owing to the important role Diaspora plays in both National and County development through social and financial remittances. It is in this regard, that FAO has sought to have a database of Kenyan Diaspora originating from Kiambu County in order to tap their expertise in agri-business for the success of the project.

If you are therefore from Kiambu County, kindly register your details in the matrix below and forward the same to [kenyacounties@kenyaembassydc.org](mailto:kenyacounties@kenyaembassydc.org) by 20<sup>th</sup> December, 2018;
