

Unlocking Growth in Africa: How the Diaspora Can Partner with the Public and Private Sectors in the U.S. and Africa

Please join U.S. Export-Import Bank Chairman **Fred Hochberg**, PTA Bank President & CEO **Admassu Tadesse**, Tanzanian Ambassador **Liberata Mulamula**, OPIC's EVP **Mimi Alemayehou**, USTDA's General Counsel **Enoh Ebong**, and other invited guests for a conversation at the **GE Garages** on how the American corporate community and the African Diaspora are partnering to create economic growth across the continent of Africa.

Date: April 10, 2014

Location: GE Garages

Time: 8:30 a.m. - 11:20 a.m. *

*There will also be time for exploring the GE Garage space before and after the event.

Participants will have the opportunity to hear success stories, strategies for partnerships and directly from GE Human Resources on recruitment strategies for the continent. The event will also highlight a new partnership between Ex-Im and PTA Bank to support trade and investment.

To RSVP, please email: ABI@USChamber.com.

GE Garages began in March 2012. As a large-scale national program, GE created the Garages experience to reinvigorate America's interest in invention, innovation, and manufacturing. Programs have included custom projects, curated speaker sessions and workshops amidst a fully equipped fab lab, including hardware such as CNC mills, laser cutters, 3D printers, injection molders, Arduino kits and much more. At Garages, participants have worked with technical experts and partners to learn more about advanced manufacturing processes, and bring their wildest ideas to life.

Arrive early to walk through the GE Garage space and experience the amazing technology on display.
