Date and time

Wed, December 14, 2022, 3:00 PM – 6:00 PM EST

Location

Barrett & O'Connor Center, Arizona State University 1800 I Street Washington, DC 20006

About this event

Re-imagining the silicon savannah is a high-level roundtable, under the leadership and vision of H.E President (Dr.) William Ruto, at the margins of the **2nd US-Africa Leaders' Summit** on **14th December 2022 at 15.30H (EST)**.

The objective of the roundtable is to showcase the Republic of Kenya as the **Technology and Environmental Sustainability Capital of the World**, with KONZA Technopolis as the centerpiece of this ambition.

More specifically, the roundtable will

- Create an opportunity to share market opportunities, products, services, and investments in Kenya for technology companies, investors, and VCs. The **Government of Kenya** will highlight some notable bankable projects and initiatives in Kenya.
- Invite partners to make announcements and commitments in line with Kenya's development priorities in the areas of

1. Presidential Climate Ambition on Climate Action & Carbon Removal.
2. Food Security, Water and Just Energy Transition
3. Business of Space Leadership and Deep Tech
4. Education and Entrepreneurship
5. Creative Industries, Film and the Metaverse

Invite participants to consider supporting and participating in Kenya at the Presidential Climate Action Summit in June 2023 and the International Alliance of Science Parks (IASP) Conference in 2024.

Government of Kenya (KONZA) & Thunderbird School, Arizona State University

Organizer of Re-Imagining Silicon Savannah - High Level Roundtable
